

## **PlumpJack Catering Testimonials**

With our new office opening in downtown Mill Valley, it was time to commemorate the achievement with a grand opening party. We approached PlumpJack/Balboa Cafe who promptly suggested a meeting on site to assess our needs. Courtney and Chef Rick guided us to excellent choices for beverages, food options, set-up and party execution with limited space and short time perimeters. Follow-up was prompt and thorough. The day of our event, everything flowed beautifully... the food was delicious and I was able to enjoy the party with confidence I could rely on their leadership....and they did it all with a smile.

PlumpJack catered my Grand opening party at "The Drybar" and the food and service were absolutely spot on. As I walked around socializing, every guest commented on how delicious the food was. The Chinese Chicken salad served in mini take out boxes were a huge hit, homemade potato chips with smoked salmon topped with creme fraiche, "delicious," mini filo tarts with wild mushrooms, Kobe beef carpaccio, Heirloom tomato panzanella "amazing!" All the staff with PlumpJack was very friendly, nice and knew exactly what to do. PlumpJack also catered my wedding and every steak was cooked to order and came out perfect "very impressive!" LOVE and will always use them for my catered events!
